

ABSTRACT

DINAS TATA KOTA PALEMBANG

One of the major rivers in the city of Palembang is Musi River. Musi River separates the city into sections Ulu and Ilir. The bridge is connecting regions separated by the Musi River. Lack of facilities bridge in the city of Palembang, so that the government implement development Musi IV Bridge. Musi IV Bridge connecting the Regions 13 Ulu with the Region Bom Baru Harbour. Construction site Musi IV Bridge in Regions Bom Baru Harbour is the location of Dinas Tata Kota Palembang. Dinas Tata Kota Palembang is one of the buildings in the relocation. Dinas Tata Kota Palembang, now occupy temporary offices at the Port 35 Ilir. For these reasons, the Dinas Tata Kota Palembang Department has not had a permanent office. Dinas Tata Kota Palembang new have the identity of the city of Palembang in the form of custom house namely Rumah Limas and Kain Songket motives. In addition to the form of government offices, Department of City Planning provides the facility of Palembang City Gallery, and the Diner as a support facility. Development projects Dinas Tata Kota Palembang uses architectural style Neo-Vernekular. The use of architectural style Neo-Vernekular for the Dinas Tata Kota Palembang using the architectural style Vernekular are modified.
