

ABSTRACT

TRAIN STATION KARYA JAYA

With following increase in demand for public transportation in Palembang city, it show that the economy progress in Palembang have an increase. Train Station have become main sources for Sumatra Resident for transportation. Palembang City had done revitalitation and renovation to its older stasion, but the need of people for transportation keep increasing. By that problem, the idea to create a integrated terminal occurred alongside creating a new trainstation with larger capacity, with the purpose to make transportation activity easier varying from short distance into long distance transportation.

Key word : train station, economy, integrated, Palembang, transportation
