

## ***ABSTRACT***

### ***DRUG REHABILITATION CENTER IN SOUTHERN SUMATRA***

*Rehabilitation is an activity or process to help patients who have serious illnesses or disabilities that require medical treatment to achieve physical psychological and social abilities are maximized. Rehabilitation has various types, one of which rehabilitation for drug abuse. Rehabilitation of drug abuse is one of recovery facilities for people with drug abuse. The facility is planned to have a One Stop Centre service system consisting of medical rehabilitation and social rehabilitation methods Therapeutic Community. This system refers to the norms of behavior to develop self-control and social ability. In addition to supporting the rehabilitation process, where the planned rehabilitation must have a complete facility that aims to divert thoughts resident on drugs.*
