

## **ABSTRACT**

### **TROPICAL FLOWER GARDEN TOUR VILLAGE PALEMBANG**

*Tropical Flower Garden Tour Village Palembang is a natural recreation that prioritizes with tropical flowers as the main object to become an attraction for people who come to visit. Tropical Flower Garden Tour Village Palembang can accommodate up to 2000 visitors with various facilities, such as performance stage, management office, library, flower house, restaurant / cafe, souvenir shop, playground, security post, outdoor park, and security post. The flower garden is planned and designed with the theme of "Completely Flower" which is applied to the landscape shape and the physical shape of the building at Tropical Flower Garden Tour Village Palembang. All the designs with the theme "Completely Flower" in this flower garden is applied through the approach of post modern architecture in the building, such as the use of contrasting colors in the building and the geometry shape of the building. Some buildings use the Aluminium Composite Panel (ACP) material as secondary skin, such as in the office building or library, stage performances, and souvenir shop. In the landscape of this flower garden has several parks that grouped based on the origin of tropical flowers, they are Indonesia Gardens, American Gardens, Indian Gardens, and African Gardens with the typical park of each country.*
