

ABSTRACT

SPECIAL HOSPITAL FOR CHILDREN

Health is a necessary thing in every human life. Efforts to improve health services straight to be done by increasing life expectancy in humans.

Palembang City does not have a hospital that specializes in the care and treatment of children. Some of the problems that often occur in hospitals are hospitals is a place that is identical with a scary place that causes stress.

The design of the first special hospital for children in Palembang is one of the opportunities to reduce the rate of illness in children and to create clarity and ease of circulation, and eliminate the scary and creepy image of being hospitable hospitals by providing a comfortable atmosphere for both patients and other users.
