Experiences of Students Who Have Experienced *Bullying* in Palembang Middle School

### SKRIPSI

PROGRAM STUDI ILMU KEPERAWATAN

FAKULTAS ILMU KESEHATAN

UNIVERSITAS KATOLIK MUSI CHARITAS

**Background:** *Bullying* is a situation / situation carried out by a group of people in abuse of power / power. The incidence in Indonesia according to UNICEF in 2016 ranked first in cases of *bullying* in children reaching 84%. This makes students have mutual respect, tolerance and for each other.

**Objective:** This study aims to explore the experiences of students who experience *Bullying* in Palembang Middle School.

**Method:** this study uses a qualitative research method with a phenomenological approach, data obtained from in-depth interviews with 3 participants.

**Results:** the results of the study found 6 themes, namely: 1) the type of *bullying* obtained, 2) the causes of *bullying* obtained, 3) feelings when experiencing *bullying*, 4) reactions of students experiencing *bullying*, 5) the place of *bullying*, 6) ways overcome *bullying*. Based on the results of the study, it is expected that Tri Budi Mulia Palembang Middle School will work with students who experience *bullying* to improve the condition of students who experience *bullying* by directly involving *bully* victims and teachers.

**Suggestions:** it is expected that the offender can reduce or stop *bullying* against schoolmates, while for victims it can prevent and stop *bullying* behavior by reporting to the teacher or parents.

**Keywords:** Students of *bullying* victims
