

ABSTRACT

“Effect of the Work Environment Analysis On Employee Morale in Perum Perumnas Regional II Cabang Palembang”.

(Under the Guidance Mrs. Agatha Septianna SR, SE, MSi)

This study aims to determine the effect of environment on employee morale. This study is located in PERUM PERUMNAS Regional II Cabang Palembang. This type of study is a descriptive statistic with 50 respondents who obtained a census technique. The results showed that the working environment variables significantly influence morale. Work environment affects employee morale by 85%. These results may change if the sample used is different. This is due to the limited sample used only from employees Perum Perumnas Regional II Cabang Palembang.

Key words: work environment, employee morale
