

ABSTRACT

Palembang is one of the metropolitan cities in Indonesia. One of the problems that often arise in a developed city is high level of competition to survive in life. High pressure in life sometimes adversely affects the physical and mental condition of a person, for example, arise boredom, stress and even lead to an unhealthy lifestyle. To overcome this, one needs to make body treatment to revive the freshness of mind and body, because it can not be denied that one's appearance is important. By the presence of Beauty Care Centre in Palembang, is expected to be a place for people in Palembang as a place to take care for their bodies to be better than ever, by presenting a number of facilities such as a beauty clinic, body treatment, beauty salon, SPA and fitness center. Beauty Care Centre is designed with the theme of relax and refresh with a design approach to nature so that visitors do not just come to treat their body but also for their soul, will find a rest and refreshment through a relaxed, cozy and homey room atmosphere.
