

ABSTRACT

This study aimed to examine the effect of profitability, company size, and the public ownership Disclosure of Corporate Social Responsibility. The population in this study is the property and real estate company listed on the Indonesia Stock Exchange (BEI) in the period 2011-2014. Selection sampel using purposive sampling method with a total sample of 177 observations. Data analysis technique used is multiple regression analysis. The results obtained showed that profitability does not affect the disclosure of CSR, while the size of the company and public ownership positively affects CSR disclosure.

Keywords: Profitability, Company Size, Public Ownership, CSR.
