

### **ABSTRACT**

*The development of technology has progressed in various fields one of which is education. Religious education is one of the compulsory subjects taught to students in a curriculum that is taught in school. Charity Primary School 03 East Buay Madang in the implementation of the learning process is still applying the conventional learning, which enables students to understand the lessons are less effective.*

*Multimedia is the use of a computer to present and combine text, sound, images, animation and video with tools (tool) and connection (link) so that users can navigate, interact, work and communicate. In education, multimedia is used as the medium of instruction, both in the classroom and individually. To process the animation of text, images, and sound using Adobe Flash CS5. While the methods used in this study is the waterfall model.*

*This created a learning tool to help students of primary 3 to be able to understand the material taught more quickly, so it can be reduced and the role of teachers as facilitators for students only. With the expected student learning media is more understanding in recognizing various types wake up flat.*

**Keywords** : *Religion, waterfall models, multimedia, Adobe Flash CS5*
